The purpose of this meeting is to discuss the proposed fire hall design.

GBaker reported that he had contacted Sherman construction, they will get Baker some estimates, Morton Buildings haven't returned the call.

GBaker said that for a building size of 54'X72' if we have build out, we will have to shift doors.

Laulunen said to keep in mind the location of the septic.

Driscoll wondered if we could add on to the existing building, probably not with a pole building. Laulunen said with the doors on the ends it would allow for an easier driveway.
